## FLEXIBLE SOFTWARE SOLUTIONS FOR YOUR BUSINESS

information • innovation • integration

### Overview

Founded in 1996, M.A.G. Intégration has made it a priority to offer companies solutions to overcome problems related to new data processing applications integration, and existing systems optimization. Over the years, we have developed a considerable expertise while working closely with distribution and manufacturing companies.

We are known for the development and deployment of software designed for warehouse and supply chain management as well as for developing scorecards and integrating transactional websites. Our offices are located in the Montérégie and Eastern Townships regions, but we operate throughout Québec, Ontario and the United States.
